Title = Court Room Recorder

```

4. Start the Application

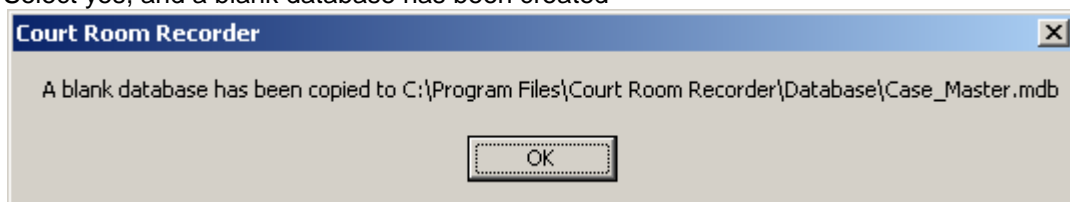

- 1) Launch the application from the shortcut added in the start menu

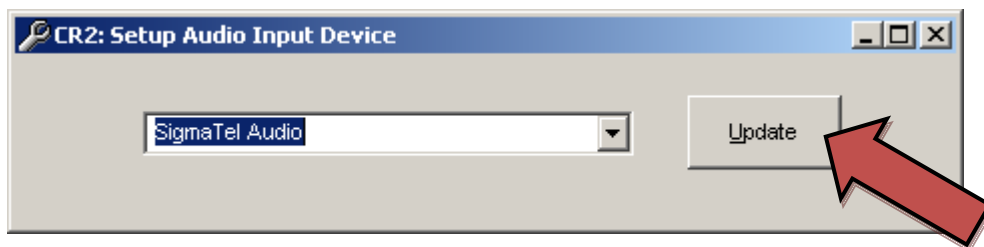

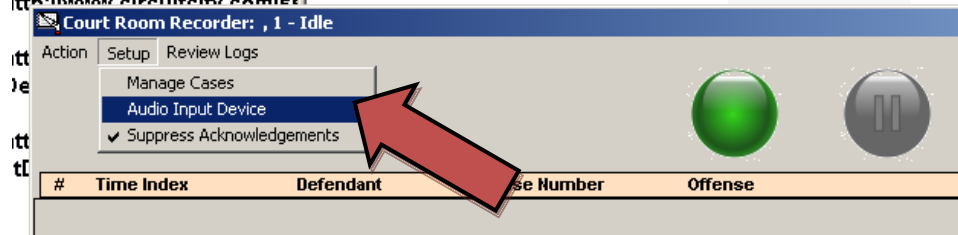

- 2) Upon initializing, you may be asked to enter a license key. Please contact your sales rep for information regarding licensing.
- 3) If this is your initial install and not an upgrade, you will be asked to create a blank database, because the software cannot find a database. If this is an upgrade you will not see this message

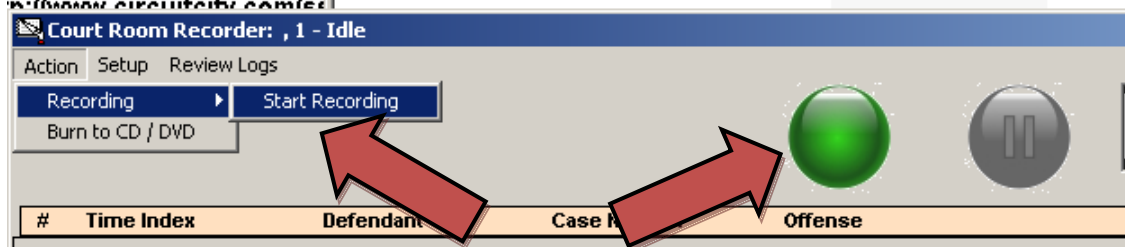

Select yes, and a blank database has been created

- 4) You will now need to select the audio to be used by Court Room Recorder, select Setup, Audio Input Device, then select the appropriate device, and select update. After this step you will need to restart the application for the changes to take place.

- 5) Restart Court Room Recorder
- 6) Click the green *Record Light* or *Action, Recording, Start* to begin Recording

- 7) Product is now ready for use, please see the Court Room Recorder Manual for information regarding use of the product
